

Messaging for Parents at the SAISD Board Meeting on
Monday, September 11th, 2017

While our children will be gathering signatures from their peers regarding the SAISD ruling on “discriminatory protections” for LGBTQA, we as Parents must present our case to the SAISD School Board officials, who have been elected by the vote of those within the District to serve our children.

As Parents and / or Guardians, we send our children off to school in good faith for 180 days per year to be taught by our educational professionals. We trust that what our children are being taught is “truth or reality”. With regard to sexual orientation and gender identity this trust has been violated. We, as Parents, want to reintroduce and establish the following:

1. The official position of the San Antonio Independent School District with respect to transgenderism is that there are only two biological genders: male and female. This shall be the official position of the school district in all policies and in teaching materials presented to the students.
2. Children will not be taught that they can be any gender they desire or feel that they are.
3. Children will be taught that sex is biological and immutable.
4. Gender dysphoria will be taught and described as a mental health condition to be treated with respect and dignity, as with any other physical or mental disability. Gender dysphoria is defined as *"Unhappiness with one's biological sex or its usual gender role, with the desire for the body and role of the opposite sex."*
